FUNG XIN JIE

Engineering Systems & Design Undergraduate

Portfolio: https://xinjiesdesk.notion.site/xinjiesportfolio?source=copy_link | fung.xj@gmail.com |

PROFILE SUMMARY

Engineering Systems and Design undergraduate at SUTD with a Diploma in Applied Chemistry from Singapore Polytechnic, combining a scientific foundation with applied data analytics and statistical modelling skills. Experienced in translating complex processes into structured, evidence-based analysis, with a strong eye for detail, data integrity, and process rigour. Proven ability to work cross-functionally across research, sustainability, and stakeholder-facing projects, with a keen interest in applying analytical and risk-aware thinking within a banking environment.

EDUCATION

Singapore University of Technology and Design 2024 – 2028

Bachelor of Engineering (Engineering Systems & Design)

- Applied statistical and probabilistic modelling to analyse real-world problems (Modelling Uncertainty)
- Built foundational knowledge in algorithms, data structures, and machine learning (Data Driven World)
- Developed end-to-end data analysis solutions using regression and statistical methods in R and Python (Data & Business Analytics)
- Collaborated with external stakeholders (Credit Bureau Singapore) to deliver real-world impact through data analysis and synthesis, exercising careful validation of data sources and findings

Singapore Polytechnic 2021 – 2024

Diploma in Applied Chemistry (Pharmaceutical Science)

- Completed Fundamentals of Programming (Python) and Graphic Design Fundamentals electives
- Gained laboratory skills through Instrumental Analysis (FTIR, UV, GC, LC), Lab Management, Quality Assurance and Statistics
- Class Committee Treasurer (2021–2022); active member of Krav Maga Club; Gold with Honours CCA Records

Methodist Girls' School 2019 – 2020

Singapore–Cambridge GCE O Level

WORK EXPERIENCE

Data Analyst Intern, Sustainability | *The Ascott Limited (CapitaLand Group)* September 2026 – Present

- Incoming role supporting the Sustainability team, working with environmental and operational data monitored across Ascott's global portfolio of serviced residences
- Expected to contribute to data consolidation, quality checks, and reporting to support ESG tracking and disclosure across markets

Science & English Tutor | *Freelance* May 2024 – June 2026

- Provided one-on-one tuition for Primary 1 English, Secondary 1 Science, and Secondary 4 Science
- Helped student achieve A2 in preliminary exams in under two months
- Developed students' subject understanding, confidence, and enjoyment of learning

Research Associate Intern, R&D | *Procter & Gamble — Febreze · Ambi Pur* March – August 2023

- Created innovative product demonstrations for Febreze and Ambi Pur brand lines
- Led in-house usability testing of new products, identifying ways to effectively showcase features
- Independently planned and executed research projects, applying problem-solving, analytical thinking, and creativity
- Collaborated cross-functionally with different R&D departments to achieve project goals

SKILLS

Technical: Python · R · SQL · Julia · MS Office · PowerBI · Adobe Photoshop · Adobe Lightroom · FTIR · UV · GC · LC

Soft Skills: Analytical Thinking · Attention to Detail · Cross-functional Collaboration · Problem Solving · Adaptability

AWARDS & ACHIEVEMENTS

- Secretary, SUTD Taekwondo Club; Event Planner for Fight Night 2025, coordinating teams and logistics
- Gold Medal, SUTD Taekwondo Open Championship (Kyorugi) 2025; VTKD Finisher, SUTD Taekwondo Open Championships 2026
- Gold with Honours CCA Records — Singapore Polytechnic (2023)
